Re: Email contact information

In order to ensure that your company gets the most benefit out of SFSA membership, SFSA periodically sends out notices about meetings, research projects, and publications such as the monthly Casteel Reporter and the quarterly Technical Folio. These messages are now sent out exclusively via email.

Without at least one email address on each list, your company will miss out on valuable business and technical information.

Please indicate the email addresses and which types of messages should be sent to each person below:
